A. B. 32—Made a special order for Wednesday at 2 p. m.

A. B. 31—Placed on third reading and passed by a vote of 34 to 5.

A. B. 33—Considered in Committee of the Whole and number of amendments adopted.

A. B. 7—Placed on third reading and passed.

Assembly in Committee of the Whole. A. B. 40 reported favorable, made special order for Friday. S. B. 19 reported favorable.

Adjourned till today at 11 o'clock.

Ski for Parts Unknown

Dr. A. C. Chappelle a homeopathic physician of more or less repute drifted on the Comstock several months ago. His principle occupation since arriving here has been dodging creditors at which he proved an adept. He evidently had worked the limit this month, so he made an appointment with each creditor and told them to call at his office this morning at 10 o'clock and get their money. They were there to a man but no doctor showed up. It then developed that the Dr. had taken the early morning train for Reno. The amount owed were not large in any particular case but in the aggregate will amount to about \$2,000.—Chronicle.

Funeral of John Wood.

The funeral of the late John Wood took place from the undertaking parlors of Geo. E. Kitzmeyer yesterday afternoon at 2 o'clock. Rev. J. B. Darneille officiating, and was attended by the old friends of the deceased.

The music as rendered by the Presbyterian choir.

Stay of Execution Granted.

The Supreme Court has granted a stay of execution in the case of Gorman, Sovner and Roberts, who were to be hanged to-morrow. This stay is given to permit the examination of the request for a new trial. The execution will not take place until some time in the summer, if at all.

Location blanks for sale at this office.

Mrs. W. F. Wilson and little son arrived on the train this morning from Reno. The baby has been quite sick but is better now.

Dry pine and pine nut wood can be found at Petersen & Springmeyer's hay yard. Ring up the phone.

Wanted—A furnished house to rent or a small ranch property situated near this city. Inquire at this office.

The two year old child of Emilio Dammell was drowned in a small pool of water near Reno Sunday night.

Elias Jenkins and Miss Daisy Allen were married in San Francisco on the 4th inst. The bride is the daughter of Lieutenant Governor Allen and is well known in this city.

Eight persons were injured, one seriously in the wreck of the west bound passenger train one mile west of Verdi Tuesday morning.

While running from Reno to Sparks last night the switch engine left the rails and turned over on its side. Frank Dalton and Will Roe, two switchmen riding on the tank, were thrown through the air for a distance of nearly 100 feet and both sustained serious injuries.

PRETT HOME WEDDING.

Miss Verra Davis becomes the wife of Joseph Davidson.

Yesterday afternoon at half past two o'clock, Rev. Samuel Unsworth, Rector of Trinity Episcopal Church of Reno pronounced the words that made Verra Stuart Davis of this city, and Joseph Ernest Davidson, of Louisville, Kentucky, man and wife. The wedding was a private one, only immediate friends and relatives being present, but an informal reception was held from three to four o'clock, during which time many acquaintances called to offer their congratulations and wish Mr. and Mrs. Davidson a life of happiness and prosperity.

The rooms were tastefully decorated with evergreens, smilax and carnations and the large mirror in the front parlor, banked with ferns, made a handsome background for the bridal couple and reflected the scene in all its beauty. The bride was married in a traveling costume of reseda silk, becomingly fashioned, and the groom wore the conventional black suit. The maids of honor were Gwynne Davis and Mary Casson, both very pretty maidens, attired in pink organdy with pink butterfly bows in their hair. Little Alice Rickey in a dainty gown of pink silk, received the guests at the door and direct them to the reception room. Mr. Lee Kerfoot, a personal friend of the groom supported him as best man.

The bride is the elder daughter of Mr. and Mrs. James Truman Davis and is a native of the State. She is a charter member of the Delta Rho Sorority of the State University and revelled from the society a handsome cut glass dish with the emblem of the "Iota" cut in the design.

The groom is a resident of Louisville and is a prosperous mechanical engineer and architect. He is a young man of extensive learning and talent that will make him ever progress in his art and business.

The wedding gifts were exceedingly numerous and beautiful, cut glass and silver articles predominating, and the bride will be able to fit up her little home in elegant style. Mr. and Mrs. Davidson will make their home in San Francisco for the next six months residing at 721 Parker Avenue; after that they will probably return to Kentucky, which will be their future home.

The Appeal wishes to be among the many friends who wish the newly married people a life of happiness.

Dancing School.

On Saturday evening, January 14th, at Armory Hall, a dancing school will be established. Social dance to follow. Instructions from 7 to 9 in the evening. Gents 50 cents. Enquire at the Singer Office, Park Hotel.

Location Blanks.

Mining location blanks, same form as used in the Tonopah-Goldfield section, for sale at this office.

Black Platt's Troubadours will appear at the Opera House next week. Mrs. F. H. Norcross was among the arrivals from Reno yesterday morning.

THE GOVERNOR'S MANSION.

Platt's Bill Passes and Awaits the Governor's Signature.

Yesterday afternoon the bill introduced in the Assembly by Assemblyman Platt of this county, appropriating \$15,000 for the Governor's mansion, passed the Senate, the measure having passed the lower house a few days ago.

The measure was argued before the Committee of the Whole and Mr. Platt addressed the Senate on the merits of the bill. He plainly showed the necessity of the measure, and quoted figures to the effect that the appropriation asked for was in no way greater than had been asked for in the general fund in past sessions. His talk on the measure was clean cut and decidedly convincing, with the result that when the bill came up for the final reading and vote that there were but three votes against it.

Two years ago, such a bill was introduced, but through the shortsightedness of some of the members of the House it was relegated to the White Pine delegation where it gently reposed until after the session. This session the seriousness of the measure became apparent and by the hard work of Mr. Platt in the Assembly and the Work of Senator Brougher in the Senate the bill went through with good majorities which leaves Governor Sparks in the position to sign the bill with the feeling that it is the general sentiment of the members of both houses that the State of Nevada furnish her chief executive with a proper home for himself and family, and that in the future the Governor of the State will not have to go house hunting or hang up at a hotel during his term of office.

The sum appropriated, though not large, will build a very substantial edifice. The fact that the rock to compose the walls will be cut from the State Prison will add greatly to reducing the price of construction, and will also allow the State to erect another building that is a benefit and pride to own.

All of the building now possessed by the State in this county are the best that skill and workmanship can accomplish, and there is no reason why the new home should not be of the same character. The Government saw fit to expend a hundred thousand dollars in its Federal building and the State is evidently inclined to help the good work along. With the Governor's home, the Federal buildings, and the new buildings that have gone up at the Indian School, together with the handsome Orphans' Home, that is nearing completion, the State has every reason to be proud of the work accomplished.

MINERS WANT LAW.

Freight Rates on Oil Advance to Unreasonable Point.

Operators here who are engaged in mining at Goldfield and Tonopah are being advised of an advance in the freight upon crude oil from California, which is considered outrageous. Crude oil shipped into Tonopah from Kern county, Cal., which costs at the wells 40c a barrel has heretofore cost the consumer \$2.30 per barrel, laid down at Tonopah, or \$1.90 a barrel, in freight. Now, and without warning, according to the reports received here, without the cost of the oil having been raised a cent at the wells, consumers at the Tonopah end have been notified by the railroads that the price in the future will be \$4.60 per barrel, delivered at camp.

This action on the part of the railroads has aroused a great deal of feeling at Tonopah and Goldfield and it is expected that the matter will be taken up by the Nevada legislature at its present session. Oil is used to generate power almost exclusively in Nevada camps and to have its cost raised 100 per cent is more than the mining fraternity feels like standing. It is taken to mean that the railroads are planning to exact every cent that the ores of the new district will stand and give the operator a little of something for his trouble.

A burden which works a still greater hardship on the mines of the section named is that of the freight rate on modest value ore. The freight rate on \$50 ore from Tonopah to this city is \$11.20 per ton. If the cost of shipping from Goldfield and other camps to Tonopah, including the cost of milling low-grade rock is added, it is evident that it will not be long until nothing but the highest grade rock, easily mined, will be able to stand the tariffs exacted by the railroads and smelters. —Salt Lake Herald.

W. J. Westerfield was among the passengers on yesterday's express.

He Furnishes the
Missing Parts

No pen can possibly picture the artistic and nobby looks of an "International" garment. The dash and style are too subtle to be caught with truth by pen or pencil. We can give you some sort of an idea of their looks in our book of fashions, but for the real living expression of a custom-made suit, you must see it on the wearer.

Price makes no difference. We make suits all the way from \$12 to \$40. Every suit is cut with the same dash and style. As the figures go up the quality increases, but a low-priced "International" suit is oftentimes the other fellow's best.
